

NEWS RELEASE

Distributed August 27, 2015

Residents reminded of 24 hour parking period

Summary

The City reminds residents that vehicles cannot be parked on any highway or street for a continuous period exceeding 24 hours. This requirement is in place to ensure vehicles are not stored on City property.

Strategic Link: Taking responsibility to be an excellent municipal government.

Key Points

- Streets (which include boulevards) are for the use of all residents and cannot be used by property owners for their own storage purposes.
- Vehicles must be moved after a period of 24 hours.

Quotes

"Reducing the number of vehicles stored on City property ensures our streets are not congested."
