City lighting upgrade program saves money, enhances public safety

Summary

A number of public parking lots and City facilities have had their existing lighting upgraded to Light Emitting Diode (LED) lights. Upgrades were made to the North Nanaimo, South Nanaimo and Departure Bay Gateway Signs; City Park Operations Yard; Beban Park and Nanaimo Aquatic Centre lobby areas; Nanaimo Aquatic Centre leisure pool; Cavan Street and Brechin Boat Ramp parking lots and the Bastion parkade.

The new LED lights provide significantly reduced energy consumption, much longer life reducing maintenance costs and high quality light.

Strategic Link: Asset Management, Environmental Responsibility, Taking Responsibility to be an excellent municipal government.

Key Points

- The City of Nanaimo receives incentives from BC Hydro for projects related to the Strategic Energy Management Program.
- Changing these sites over to LED lighting reduces energy usage by 50 per cent.

Quotes

"LED lighting is a more efficient and effective way to light public spaces. The bulbs last longer, use less electricity and are brighter which provide an higher degree of public safety."
