New policy approved for Nanaimo's neighbourhood associations

Policy provides support and grant funding

Summary

At their April 25, 2022 meeting, Council adopted a Neighbourhood Association Supports Policy along with a \$10,000 annual Neighbourhood Grant Program, which will begin in 2023.

An initial review of neighbourhood associations began in February 2020 where Council was interested in the organizational status of neighbourhood associations and the City's relationship with these groups. The discussions led to gathering input from existing associations, reviewing other municipality's engagement models and collecting feedback through a community survey. After thorough analysis and consultation, a policy was created establishing organizational criteria and identifying ways to support the associations, including funding opportunities.

The policy states the City of Nanaimo will support neighbourhood associations that meet and maintain the following organizational criteria:

- Have an elected executive that meets on a regular basis;
- Have a membership structure;
- Hold an annual general meeting, and provide a copy of the minutes to the City;
- Keep minutes for executive and general membership meetings;
- Engage with its membership for input prior to responding to City development referrals; and
- Provide periodic updates to members related to the activities of the group.
