

CONSTRUCTION NOTICE

HAMMOND BAY ROAD - KENWILL DRIVE TO TURNER ROAD

Milestone Equipment Contracting, on behalf of the City of Nanaimo, will continue construction on the Hammond Bay Area Utility & Transportation Upgrade Project on Hammond Bay Road, between Kenwill Drive and the Turner Road intersection. This work is part of the City's 2025 Capital Projects Infrastructure Improvements.

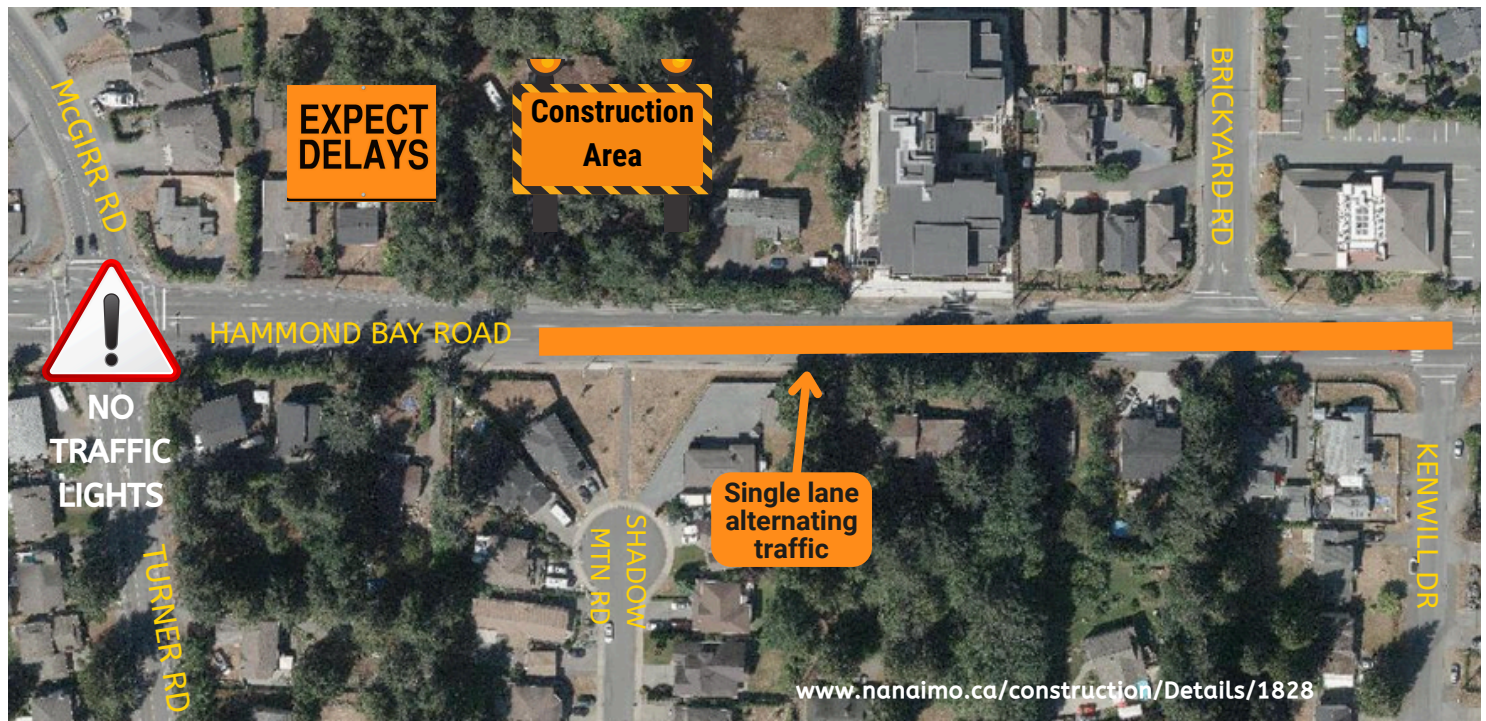

To assist with permanently repaving the road, temporary lane road closures will be necessary along the westbound lane of Hammond Bay Road heading towards Turner Road.

During the working week, the traffic signals at the intersection of Turner Road, McGirr Road and Hammond Bay Road will be turned off and controlled by traffic control personnel. Drivers should expect to experience some delays when passing through this intersection.

Typical work hours will be Monday to Friday, 7am - 7pm. Construction signs will be posted and flag persons are on duty to assist with pedestrians, cyclists and traffic flow. Please exercise caution, obey all signage placed for your safety, and follow the directions of the flag persons on duty. We ask local residents to please help us communicate these temporary impacts to your visitors and delivery drivers.

This project will be ongoing along Hammond Bay Road and is expected to last until the summer of 2026.
