Anchor Way Park	20 Anchor Way	0.04 ha		Developed	Wheelchair Accessible	<p>Anchor and floral display. Gateway to Harbourfront Parkade, sea planes and walkway.</p> <p>The Plaque Contains the following words: This hand-forged anchor stands as a testimonial to the men and ships that sailed the area, providing important links of trade and communications to world markets.</p> <p>The Anchor came from one of the largest ships to load coal in Boat Harbour, approximately five miles south of Nanaimo. The ship, thought to be the SS Northland and known as a steam packet, was a three-masts sailing ship with a steam engine. While attempting to approach the coal bunkers to load coal, which were 600 feet from shore, it ran into strong winds approximately 1/2 a mile off the dock. In an attempt to slow the ship the anchor was lowered, it snagged on a reef, thus possibly breaking the dog on the winch. This accounts for all of the chain being recovered with the anchor. The ship eventually ran into the dock.</p> <p>The steam packets were originally built in the 1950's-1960's and constituted some of the largest cargo ships to sail this coast in the early part of the century. This anchor and chain, now at rest, are a direct link to when coal was King in Nanaimo. Chase River Estuary Park	1160 Island Highway South, V9R	3.2 ha	D1-4-32	Developed	Not Wheelchair Accessible	<p>- Park has two trail areas. Estuary Trail (317 metres) and Ridge Trail (984.5 metres). - Acquired through purchase in 2000. - Future plans to expand - Park is a unique location with constantly changing salt & fresh water levels due to estuary/Chase river location.</p> <p>Chase River Estuary Park is one of Nanaimo's best kept secrets. The park is located at the south end of Haliburton Street and was acquired by the city as a park in 1999. This park offers 1.3 km of walking trails. The river got its name in the mid 1850s after two men murdered a local shepherd. Police were searching for one of the culprits and managed to track his footprints in the freshly fallen snow. The footprints were followed up to and along what is now known as Chase River.</p>	This park is mostly boardwalks, and nice gravel pathways with a stairs in a few areas. Colliery Dam Park	635 Wakesiah Avenue	2.5 ha	D1-4-5	Developed	Partially Wheelchair Accessible	<p>Colliery Dam is a reservoir that flows into the Chase River. This 28 hectare park is a popular swimming spot in the summer, but no lifeguards are on duty. The park is cool and quiet during fall and winter when the only sounds you'll likely hear are waterfalls, songbirds, crickets and frogs. An hour or so of easy hiking trails lead around both lakes.</p> <p>The Colliery Dams are a rare link with Nanaimo's industrial heritage. Built in 1910-11 by the Western Fuel Company to supply water for coal washing and for use by miners, mules and horses in the mines, the water system quickly developed an important secondary use. Homes near the pipeline were allowed to tap the line for domestic uses and eventually this water was carried to most of the homes in South Harewood.</p> <p>The Harewood Colliery Dams symbolize the important role the coal company played in the lives of early residents. The dams created an upper and lower reservoir, with a spillway at the eastern end to siphon off overflow. These reservoirs created for power are still connected to our drinking water supply.</p> <p>In the 1950s the land was sold by Canadian Collieries to the City of Nanaimo for use as a park.</p>	Best wheelchair access is main entrance off of Sixth Street within paved parking lot. Hard-packed and level asphalt path takes the visitor to the first lake. Other accesses to upper lake is inadvisable unless assisted as parking lot is gravel. Trails range from easy to quite steep. Washroom doors are 86 cm wide.	<p>Park Designation (739 Howard Ave.): Held in Fee Simple - No Conditions on Title.</p> <p>Park Designation (635 and 645 Wakesiah Ave): Held in Fee Simple - Dedicated through Bylaw 2255. E&N Trail	St. George to Wellington (to be expanded)		D1-8-1-2	Developed	Wheelchair Accessible	<p>A multi-purpose trail perfect for walking, jogging, roller blading, skateboarding and wheelchairs, the E & N Trail is one of the most popular trails in Nanaimo. It has a relatively flat surface and is safely located from both the railway and the highway. Considered the primary multi-use trail in the City, it stretches over 8 kilometres from Rosehill Avenue in the south to East Wellington in the north. Not only does this trail connect to Nanaimo's popular and scenic waterfront, but it also provides great connection points to schools and shopping and is used extensively for both recreational and transportation purposes. Recently the East Wellington section was expanded via Dunstar Road linking the E&N Trail to the Parkway Trail. This new loop provides and great way to travel the City by trail!</p> <p>This trail is a result of a partnership with Rail America for use of the land adjacent to the railroad tracks. There are plans to expand the length of this trail in the long term.</p>		A partnership between the City of Nanaimo and Rail America. The City leases the land for \$1 a year (first license) and \$7,000 a year (second license). The lease is for 10 years (starting in 1999) with two options for further 10-year terms. Italian Square Park	626 Terminal Avenue	0.1 ha	D1-5-2	Developed	Wheelchair Accessible	<p>The Italian Fountain is an important example of a project built to celebrate B.C.'s 100th year anniversary by the local Italian community. The community wished to contribute a legacy project featuring the skills of a number of local masons. Over 150 volunteers worked on the fountain and were primarily drawn from the Italian community. Expert masonry skills were provided by Fred Rossetto and David Denbigh. The carved granite fish were crafted by George Norris and Albert Venuti. Jack Acroyd and Ray Cagna were responsible for the overall construction of the fountain.</p> <p>In 1957 a fountain committee was created with the following members from the City's two Italian Lodges: Jules Magnano, chair man; Tony Blasutig, secretary; Ray Capra, construction head, Albert Venuti, E. Niccli and Andy Ercolini.</p> <p>Throughout the whole project the Italian community voluntarily worked toward its completion. They raised money through donations, fund-raising picnics, and solicitation of building materials from local businesses. They approached the Water Board and the Department of Highways for cooperation, they quarried their own granite for the walls of the fountain from a great glacial boulders near Yellow Point, they poured concrete, built</p>	<p>Parking available at Port Place Mall.
