

FIELD STATUS REPORT

The City of Nanaimo is committed to maintaining playing fields to the highest standards and utilizes user discretion for best field management to achieve this goal.

Field status is determined through inspection by Parks Operations staff taking into account; the safety and playability of the field, the weather forecast, excessive wear and tear, and potential for damage due to field conditions. Status of fields are classified into three categories:

OPEN: Means a field is available for use. Fields will be deemed **Open** as long as **none** of the following exist:

- Standing water or puddles (ground is saturated)
- Frost or frozen ground
- Snow
- Forecasted severe weather warnings
- Ongoing field repair

DISCRETION: Means that there is potential for the field to become unsafe or damaged due to changing weather conditions. Field(s) with *Discretion* status shall be inspected by the home team coach or referee prior to the commencement of play.

CLOSED: Means there is potential for unsafe conditions or damage to the playing field. If the field is determined as **Closed**, it is the responsibility of the home team to notify the visiting team coach and their association. If a field status says *Closed* by Friday at 2pm it will remain *Closed* until Monday when it is inspected again. There will be no written or verbal reversals of field status after hours or on weekends.

**IF USE OF THE FIELD IN ADVERSE CONDITIONS RESULTS IN EXCESSIVE DAMAGE,
THE FIELD USER MAY BE CHARGED THE FULL COSTS TO REPAIR THE FIELD.**
