1.0 Introduction

The City of Nanaimo is committed to providing a safe and healthy workplace for all of our staff and the public. A combination of preventative measures will be used to minimize worker and public exposure to the COVID-19 virus, including the most effective control technologies available. Our work procedures will protect not only our employees, but also other workers and/or the public who enter our facilities. All employees must follow the procedures outlined in this plan to prevent or reduce exposure to the COVID-19 virus.

The purpose of this COVID19 Site Safety Plan (SSP) is to protect employees from harmful exposures to the COVID-19 virus, to reduce the risk of infection in the event of an exposure, and to comply with the WorkSafeBC Occupational Health and Safety Regulation 5.54 and 6.3, Exposure Control Plan.

The City of Nanaimo will strive to find ways to control or eliminate exposure to the COVID-19 virus by developing and implementing proper risk controls, establishing safe work practices, raising awareness, and providing education and training for its employees. The City of Nanaimo will follow direction and controls as specified by the BCCDC, the Ministry of Health, and the Provincial or Island Health Medical Health Officer.

Documents referenced in the creation of the City of Nanaimo SSP include:

- a) BC's Restart Plan Next Steps to move BC through the Pandemic
- b) Work Safe BC – Sports and Recreation: protocols for returning to operation
- c) British Columbia Recreation and Parks Association – Guidelines for Restarting Operations
- d) viaSPORT British Columbia - Return to Sport Guidelines for BC
- e) BC Centre for Disease Control
- f) Hockey Canada Return to Hockey Safety Guidelines

2.0 Staff Training Plan

Staff Training

The City of Nanaimo has staff training to re-activate staff prior to returning to work.

Training Topics – from site safety plan

- a) Staff Safety (all staff)
 - Site specific orientation Crew Talk - Site Safety Plan/City Exposure Control Plan

- b) Facility Admission & Access (all staff)
 - Public procedures
 - Front desk procedures

- c) Building Schedules and Programming (all staff)
 - Disinfection (all staff)
 - Procedure and video

- d) First Aid Procedures (first aiders)

All training must be documented and signed by both staff member and supervisor on the site specific orientation and/or Crew Talk.

3.0 Staff Health and Hygiene

COVID-19 Health Assessment

To avoid transmission between employees and patrons, every employee suspected or confirmed to have contracted COVID-19 must stay home.

Staff COVID-19 Self-Assessment

Anyone with COVID-19-like symptoms, such as sore throat, fever, sneezing, or coughing complete the [BC CDC self-assessment tool](#) or call 8-1-1 and inform your supervisor.

If directed, go for testing and self-isolate at home until test results are available. If testing is not possible self-isolate for 10 days. After 10 days, if your temperature is normal and you feel better, complete the self-assessment tool again to determine if you can return to your routine activities. Coughing may persist for several weeks, so a cough alone does not mean you need to continue to self-isolate for more than 10 days.

Sick Workers

- Sick workers should report to first aid, even with mild symptoms.
- Sick workers should be asked to wash or sanitize their hands and be provided with a mask, and isolated. Ask the worker to go straight home and call the COVID-19 information line for further guidance related to testing and self-isolation.
- If the worker is severely ill (e.g. difficulty breathing or chest pain), call 911.
- Clean and disinfect any surfaces that the ill worker has come into contact with.

Weekly staff schedules are maintained and kept up to date to track people that work together in the event there is a need for contact tracing on the part of the Medical Health Officer.

Hygiene

Hand Hygiene

Employees must wash their hands upon entry to the building and before and after:

- Eating
- Breaks
- Smoking
- Blowing one's nose, coughing, or sneezing

- Using the toilet
- Being in contact with animals or pets
- Using shared equipment
- Providing routine care for customers needing assistance or first aid

Face Masks

- Staff should wear face masks if physical distancing cannot be maintained with other staff members.
- At this time, wearing a face mask at all times in the facility is not mandatory. This will be reviewed on an on-going basis according to provincial health recommendations.
- Masks can become contaminated on the outside when touched by hands so employees should avoid touching or adjusting them often.
- Masks that become wet, soiled, or damaged are less effective and must be replaced immediately.
- Masks must be put on and taken off correctly, including not touching the front of the mask and washing hands before/after application and removal.
- Never share masks with others.

Personal Hygiene

- Avoid physical greetings such as handshakes and hugs.
- Employees must practice good hygiene throughout their shift including proper hand washing and cough/sneeze etiquette.
- There should be no sharing of cigarettes or vaping equipment or other personal products.

Keeping Shared Spaces and Equipment Clean

- a) Recreation Coordinators Office
- b) Administration office
- c) Skate Shop
- d) Plant Room
- e) Lunch Room
- f) Zamboni Bay
- g) Maintenance Room and Shop
- h) Dressing Rooms
- i) 1 Flex Room
- j) 1 NHL Ice Sheet

- Staff should arrive dressed in their work clothes or uniform.
- A maximum of two staff in the lunch room. Physical distancing must occur at all times. Maximum of one person in the skate shop.

- Personal items brought in (e.g. bags, shoes, jackets) must be kept to a minimum.
- If personal items are in the staff areas, adequate space must be between each staff member's items to encourage physical distancing.
- All belongings must be brought home at the end of each shift.
- Shared lockers must be emptied and disinfected at the end of each shift.

Shared Equipment include but are not limited:

- a) Photocopier
 - b) Phones (including shared cell phones)
 - c) Computers
 - d) Keyboards
 - e) Zamboni's
 - f) Tools (power tools, hammers, screw drivers etc.)
 - g) Ice edger
 - h) Janitors cart
 - i) Vacuums
 - j) Janitorial equipment
 - k) Desks and tables
- Equipment and tools must be disinfected before and after use.
 - Clean staff room table before and after each use.
 - Do not share cups, glasses or utensils.
 - Avoid sharing common objects (e.g. pens).
 - Uniforms and work clothes should be washed at the end of each shift.
 - Do not share uniforms

4.0 Disinfection and Cleaning Procedures

The disinfection procedures listed are in response to the COVID-19 pandemic. These cleaning measures are in addition to regular facility cleaning procedures. Please review the SafeWork procedures for [Cleaning and Disinfecting](#) and [How to Clean and Disinfect Your Work Station](#).

Personal Protection

The risk of exposure to cleaning staff is inherently low, however cleaning staff should wear disposable gloves and appropriate PPE for all cleaning tasks, including handling trash. PPE should be removed carefully to avoid contamination to the wearer and surrounding area. Work uniforms must be washed after each shift.

Cleaning Procedures

Surfaces frequently touched by hands are most likely to be contaminated. These surfaces include doorknobs, handrails, light switches, cabinet handles, faucet handles, tables, countertops, and electronics. These areas are high priority cleaning areas within the facility.

Shared lockers and cubbies used by patrons/employees to store personal belongings are cleaned and disinfected between use.

Nanaimo Ice Centre has created a detailed cleaning log (see page 11) which includes where, what, and how often cleaning is occurring. Log sheets and procedures are posted in the lobby maintenance room and are completed/signed off each time cleaning occurs.

Chemicals Used for Disinfection/Cleaning						
Product	Application	Who can use	PPE	Dwell Time	Rinse	Equip.
EP66 Disinfectant	Spray Bottle	All staff / gym	Diluted no gloves for public Staff -gloves	5 minutes	Wipe off	Spray bottle Paper Towel

Lobby	Perdiem	Doors, chairs, flat surfaces,	Hourly, on demand, after the end of the shift	Program Leaders		
				Arena Maintenance		
				Facility Attendant/Ambassador		
Hallways	Perdiem	Light switches, doors, windows, glass,	Hourly, on demand, after the end of the shift	Program Leaders		
				Arena Maintenance		
				Facility Attendant/Ambassador		

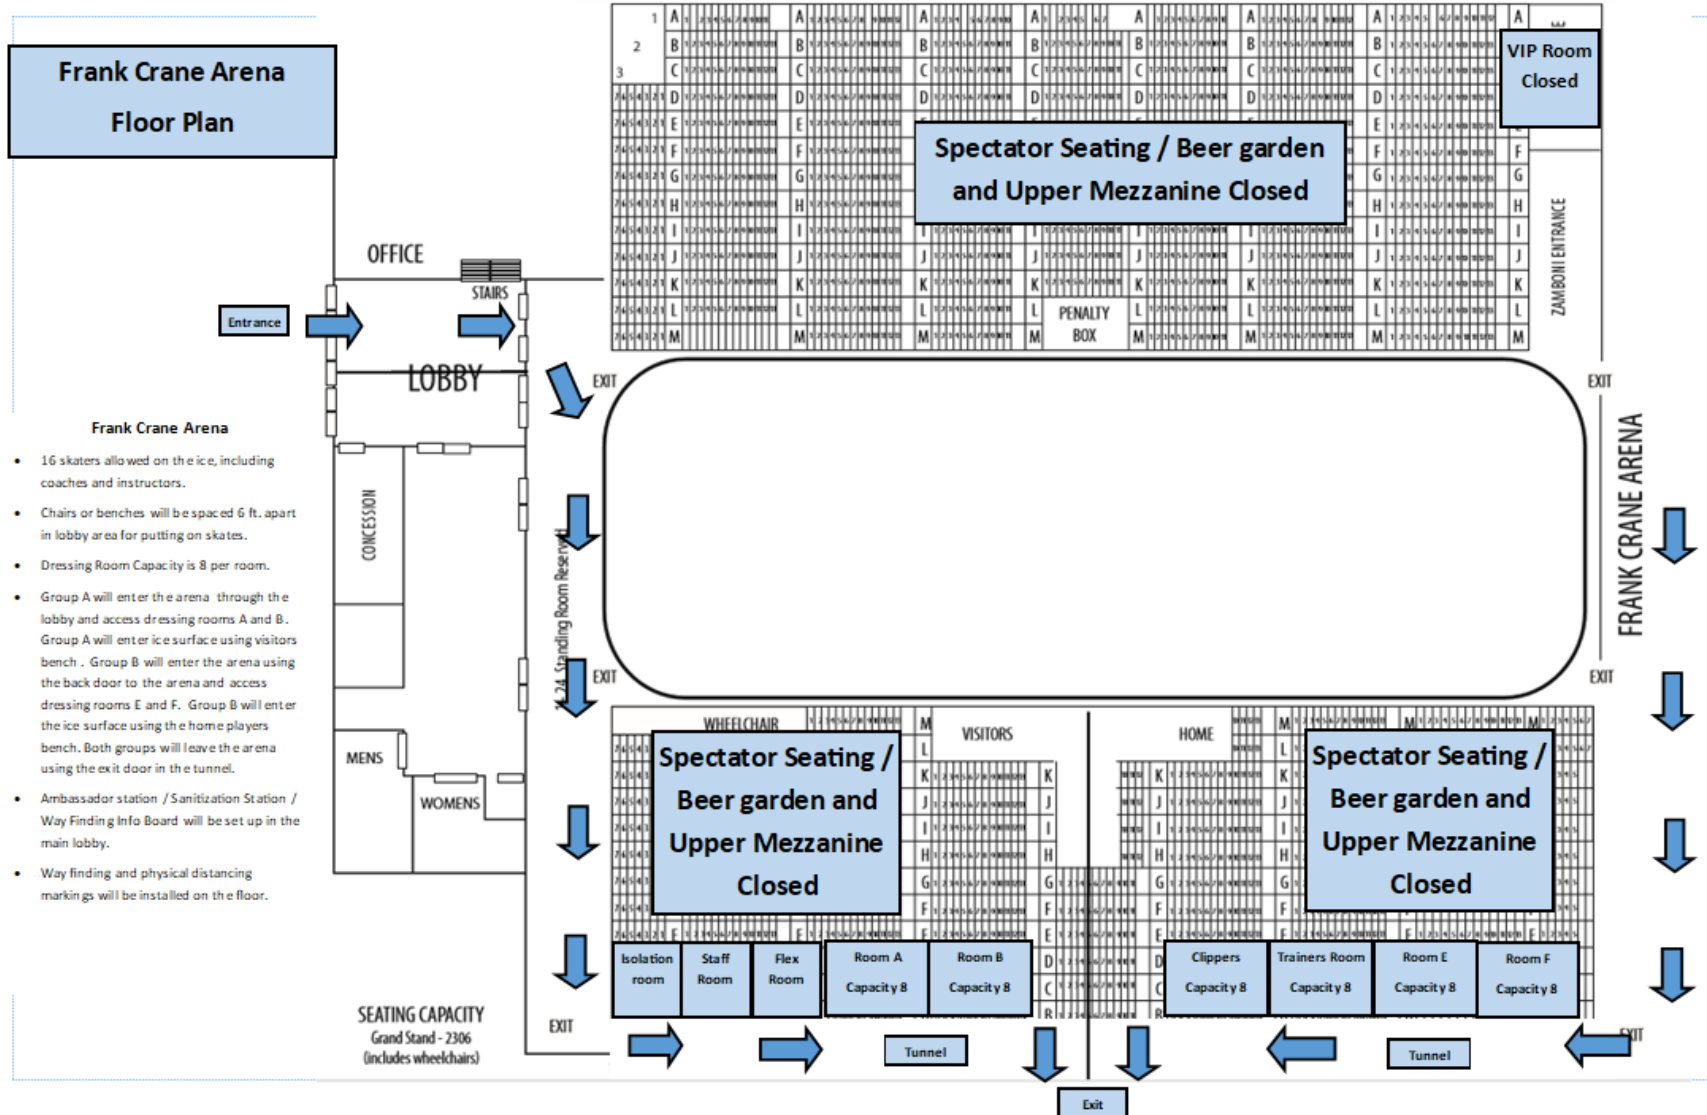

5.0 Facility Information

Facility Access, Egress and Traffic Flow

Frank Crane Arena is implementing the following facility admission protocols:

- a) At the entrance, signs are installed to inform patrons that:
 - Patrons must not enter if they are diagnosed or suspect they have COVID-19 or if they have any of the known COVID-19 symptoms.
 - Patrons must maintain physical distance of 6 ft. from other patrons and staff.
 - Patrons are to wash their hands with soap and water or use hand sanitizer upon entry to the facility.
- b) Employees located at the front desk are protected by a plexiglass barrier.
- c) To minimize face to face contact between the public and staff while maintaining customer service levels contact numbers are posted in the facility for public to call staff to request assistance.
- d) Employees should wear gloves while handling cash, payment machines and locker tokens.
- e) A reservation system and rental/program time limitation is in place to avoid crowd gathering and wait times.
- f) Facility access is provided with separate entry and exit points at the main entrance with a barrier ensuring physical distancing.
- g) Signage, floor markings and barriers are installed to guide patrons in and out of the building.
- h) Physical markers are installed on the lobby floor which indicate 6 ft. physical distancing for patrons waiting in line.
- i) Signage and barriers are installed in the lobby, staff areas, washrooms, dressing rooms, and on the arena rink boards (inside/outside) to encourage physical distancing.
- j) Lockers are spaced out to encourage physical distancing.
- k) Occupancy limits are posted for all public and staff spaces.
- l) Public visitors are prohibited in staff areas. Staff must arrive no more than 15 minutes prior to their shift and leave the building immediately after their shift ends.
- m) Allow time for staff shift changeover to minimize group gathering in staff areas.
- n) Dressing room showers will be closed at reopening of the arena.
- o) Concession service will remain closed until phase 4 of BC's Restart Plan.
- p) Select sinks, urinals and toilets will be closed in dressing rooms and washrooms to maintain physical distancing requirements.

Facility Floor Plan – Frank Crane Arena

Occupancy Limits – Public and Staff Spaces

The following equation was used to calculate the number of people permitted in each space within the facility:

Capacity as recommended in the viaSport Guidelines

$$\frac{\text{Total square footage of space (width x length)}}{54 \text{ sq. ft.}} = \text{Room/Space Capacity}$$

- a) The City's occupancy capacities comply with all Provincial health order as directed by the Public Health Officer (PHO). Facility capacities will continue to be monitored by staff and adjusted as the health order allows.
- b) Facility capacities are based on the size of spaces used by patrons and staff such as dressing rooms to ensure physical distancing can be maintained.

***Staff spaces can have higher occupancy if a mask is worn where 6 ft. physical distancing cannot be maintained.**

Frank Crane Arena – Room and Space Capacities

Public Spaces	Maximum Occupancy
Entrance Lobby	36
Hallway between Rink Boards and Lobby	24
Dressing Room A	8
Dressing Room B	8
Dressing Room E	8
Dressing Room F	8
Clippers Dressing Room	8
Clippers Training Room	6
Flex room	2
Isolation Room	1
Lobby Washrooms	3 people per washroom
Beer Garden	Closed
Spectator Seating	Closed
VIP Room	Closed
Upper Mezzanine	Closed
Upstairs and downstairs Concessions	Closed
Ice Sheet NHL size sheet of Ice 200' x 85'	16 Max. 314 allowable based on size of ice, not permitted at this time due to PHO mass gatherings order. Maximum number of people is based on the number of people permitted the dressing rooms and maintaining physical distancing.
Isolation Room is located in the flex room	1
Staff Spaces	Maximum Occupancy*
Plant Room	1
Maintenance Staff Shop / Break Room	2
Zamboni Bay	2
Skate Shop	1
Music Room	1
Administration Office	3
First Aid Room	1

6.0 Service Delivery

- A. Program Delivery**
- B. Facility Allocations (User Groups / Renter / Lease Holders)**
- C. Operating Schedules**

A. Program Delivery

City of Nanaimo arena program delivery will be determined and monitored on an ongoing basis and will be based on public health information, public needs and facility availability.

B. Facility Allocations

Rentals – Community Groups / Private Groups

1. All renters must provide a written request for facilities to the City's allocation clerk using the arena request form. Verbal request will not be accepted.
2. All bookings must be booked with the allocations clerk over the phone or by email. Face to face bookings are not permitted at this time.
3. Contracts will be sent to customers via email. Contracts must be signed and emailed back to the allocations clerk.
4. Contracts must be paid in full prior to the booking taking place.
5. User groups are asked to arrive no sooner than 20 minutes prior to the start of their ice time.
6. Ice time is available for booking in 1 hour blocks. 30 minutes is scheduled in between each ice slot to allow for group changeover and cleaning.
7. All user groups must provide a COVID operating plan to the City of Nanaimo.
8. Facility renters must comply with all health authority directives and orders.
9. Facility renters must comply with all City of Nanaimo procedures and protocols pertaining to facility use.
10. All renters must provide the City of Nanaimo with insurance naming the City of Nanaimo as co-insured.
11. The City of Nanaimo will provide all users groups with the safety protocols and guidelines that must be adhered to all times while using the facility in advance of their booking. Any non-compliance may result in termination of contract without refund and loss booking privileges. Three strike applies as follows: one verbal warning and then last strike.
12. Contracts are subject to change based on provincial health directives and orders.

Arena Leases and Facility Use Agreements

1. Lease holders must comply with all City of Nanaimo procedures and protocols pertaining to facility use.
2. Lease holders that operate in City of Nanaimo Arenas received rent forgiveness as a result of facility closures due to the COVID 19 pandemic.
3. All lease holders are required follow the directives/orders outlined by the Provincial and local health authorities.
4. Lease holders are required to perform disinfecting of areas used by their operation including but not limited to: tables, chairs, counters etc.
5. All user groups must provide a COVID operating plan to the City of Nanaimo.

C. Proposed Arena Operating Schedule

Hours of Operation – September to December 2020

Frank Crane Arena – 1 Sheet of Ice

- Staff hours 5am-1am (20 hours)
- Hours of Operation 5:30am-12:30pm (19 hours)
- Sunday to Saturday (7 days a week)
- 91 Hours available for use per week (13 - 1 hours ice slots available per day, 7 days per week equaling 91 hours per week, per sheet of ice).

7.0 Public Communication

Safety Education

- When providing information to customers about new rules and COVID-19 guidelines, it is important for staff to remember that not all customers may be initially accepting of the new protocols.
- Staff should be patient and take a customer-focused approach to safety education. **We're here to Help!**
- Staff should maintain physical distancing while providing effective and consistent messaging and expectations.

Applying the Guidelines

- a) Prior to entering the facility, educate the public on new admission standards using signage, including health questions and their responsibilities regarding physical distancing from non-family members for all activities and while using all facility amenities.
- b) Educate patrons concerning one-way traffic measures around the facility.
- c) Educate patrons on measures put in place to avoid crowd gathering such as waiting lines for recreational equipment.
- d) Educate patrons about not sharing personal equipment such as water bottles, sports equipment, helmets, skates etc.
- e) Staff working directly with the public should maintain physical distancing while providing effective and consistent rule enforcement and accident prevention.
- f) Staff are to maintain physical distancing when providing information to other team members.
- g) Staff are to follow and maintain new protocols regarding disinfection of common contact surfaces throughout the day.

Preventative Measure Information for Arena Users and Program Participants

Welcome Back!

The City of Nanaimo is pleased have its arenas open to the community. The City of Nanaimo continues to take its direction from the Public Health Officer (PHO) to inform decisions regarding the COVID19 pandemic. The health and safety of our employees and the public remains the top priority and we have worked very hard to ensure that is maintained as we reopen indoor recreation facilities.

General Information

1. Please follow the direction of our facility ambassador's while using the facility. The facility ambassadors are here to assist you.
2. Renters are required to provide an ambassador from their organization/group to assist participants during their rentals. An ambassador could be a coach, volunteer, parent or instructor.
3. All participants are required to follow all safety measures in place while using the facility.
4. **16 skaters** are allowed on one ice at one time this includes coaches, volunteers, parents, and instructors.
5. Participants are asked to arrive no earlier than 20 minutes prior to the start of the ice time.
6. Ice time is available for booking in 1 hour blocks. 30 minutes is scheduled in between each ice slot to allow for group changeover and cleaning.
7. Skaters are required to come to the arena dressed in hockey gear.
8. Game play is not permitted.
9. Seating will be available to put on skates. One parent or guardian is permitted to enter the facility to assist their child with putting on skates. Shoes will be left at the chair.
10. Adult supervision is required on the ice at all times.
11. No competitive play at this time. Activities and drills involving player to player contact or checking is not permitted.
12. Please bring your own filled water bottle to the session. Water fountain will not be available.
13. Shared spaces such as dressing rooms will be sanitized between groups.

Facility Information

1. Player's benches are closed.
2. Dressing rooms are available with limited capacity.
3. Place water bottles on player bench railings.

Health and Safety Protocols

1. Stay home if you're sick.
2. Please maintain physical distancing (6 ft.) in the facility at all times.
3. Please follow the health and safety information posted throughout the facility.
4. Please use hand sanitizer upon entry to the facility.
5. Please refrain from spitting.

Spectators

1. To control the number of people in the facility and to reduce the chance of group gathering spectators are not permitted in the facility.
2. Spectator seating and upstairs lobbies will be closed.
3. Please do not gather in groups outside the facility.

Drop off and Pick Up

1. To control the number of people in the facility and to maintain physical distancing requirements parents and guardians are asked to bring their child into the facility, drop their child off with the instructor, ambassador, volunteer or coach then leave the facility and return at the end of the session to pick up their child or youth.

Entering Facility

1. As you enter the facility an ambassador will guide you to the location of the facility that you will be using during the session.

Exiting Facility

1. Please leave the facility within 15 minutes of the session ending.

8.0 First Aid Procedures

Isolation Areas and Procedure

There is a requirement to provide a self-isolation containment area/space/room for employees and patrons showing symptoms of illness while waiting for transportation to a medical centre or home. The isolation space has been designated as the referee's room.

First Aid Protocols have been updated by Worksafe BC and the following apply:

OFAA protocols during the COVID-19 pandemic

A guide for employers and occupational first aid attendants

During the COVID-19 pandemic, occupational first aid attendants (OFAAs) continue to provide treatment to workers as necessary. Because of the possibility of community infection, you may need to modify your standard protocols for first aid treatment to reduce the potential for transmission. This document provides additional precautions you may take to include public health directives such as physical distancing, hand hygiene, and disinfection in your procedures.

1. When you receive a call for first aid, if possible, gather the following information:
 - What are the circumstances surrounding the call for assistance?
 - Are critical interventions likely required? If so, call 911 or have an emergency transport vehicle (ETV) prepared.
 - Are there any obvious signs of COVID-19? If so, send the patient home or to a hospital.
2. If no critical interventions are required, if possible and appropriate, interview the patient from a distance. Ask the following questions:
 - Is anyone sick or in self-isolation in your household?
 - Have you been in contact with anyone who has been sick?
3. When you arrive at the patient's location, assess the situation:
 - Does the patient have a minor injury that the patient can self-treat while you provide direction and supplies?

- If yes, direct the patient to self-treat per your OFA protocols (see the self-treatment scenario below).
4. If the patient can't self-treat, don the appropriate level of personal protective equipment (PPE) for the situation. PPE could include the following items:
 - Face shield or surgical-type mask
 - Pocket mask
 - Gloves
 - Coveralls (disposable or washable)
 - Apron or lab coat
 - Glasses or goggles

Because the global supply of PPE is scarce, you may need to consider other options. There are various types of masks, face shields, and respirators that you can consider.

5. After treatment, sanitize all equipment with either soap and water or 70% isopropyl alcohol. Remove and wash any PPE that is not disposable, as well as any exposed clothing. Wash your hands thoroughly. If critical interventions are required and there is no way of determining background information, don appropriate PPE and limit access to the patient to the number of people required to deal with the critical intervention. It is important to limit the exposure of others.

Scenario: Self-treatment with direction

A first aid attendant receives a call stating a worker has injured her hand. The attendant collects as much information about the severity of the injury as possible. The injury is deemed to be minor with no other concerns, so the attendant goes to the worker, but stays 2 metres (about 6 feet) away. On arrival, the attendant asks:

- Is anyone sick or in self-isolation in your household?
- Are you able to administer first aid to yourself if I tell you what to do and how to do it?

After the first aid attendant has conducted the interview, the attendant visually assesses the patient and the wound from a distance and asks the patient about underlying conditions relating to the injury.

The attendant then places the required first aid supplies on a surface 2 metres from the patient. The attendant steps back and directs the patient to pick up and apply the supplies. The first aid attendant then verbally conducts a modified secondary survey and documents the findings.

Scenario: OFA Level 1 and Level 2 with intervention

A first aid attendant receives a call about a worker who has been struck in the head and is unresponsive. The attendant immediately ensures that 911 is called. On approaching the scene, the first aid attendant conducts a scene assessment and dons appropriate PPE. Once PPE is on, the attendant approaches the patient and conducts a primary survey to determine what, if any,

critical interventions are required. The attendant positions the patient in the three-quarter-prone position to ensure that the airway is open and clear and no further interventions are needed. Only one person (the attendant) needs to be in contact with the patient; all others can stay 2 metres away. The attendant monitors the patient until the ambulance arrives.

Scenario: OFA Level 3 — employer ETV for transport with intervention

A first aid attendant receives a call about a worker who has been struck in the head and is unresponsive. The attendant immediately arranges for the ETV to be ready. On approaching the scene, the first aid attendant conducts a scene assessment and dons appropriate PPE. Once PPE is on, the attendant approaches the patient and ensures an open airway. Once the airway is open and clear, the attendant stabilizes the patient's head with an inanimate object (to free the attendant's hands) and inserts an oropharyngeal airway (OPA) to protect and maintain the airway. The attendant then conducts a primary survey to determine what, if any, further critical interventions are required. Only one person (the attendant) needs to be in contact with the patient; all others can stay 2 metres away.

Helpers will be needed to assist the first aid attendant in lifting the patient into the basket and ETV. Use any PPE or other measures available to provide a barrier between the helpers and the patient, including covering the patient with a blanket. Once the patient is loaded, ensure the helpers remove their PPE and wash their hands with soap and water.
