

Candidate: Date:

ID#:

Skill Drill 26-1

Fire Fighter II, 6.4.2

Establishing a Barrier					
Evaluator Instructions: The candidate shall be provided with the following: simulated technical rescue incident, PPE, and various types of public barriers. Conduct this skill in conjunction with others as part of an integrated, realistic training evolution. Emphasize that the candidate is not expected to be proficient in special rescue but should be able to identify the type of incident, recognize the hazards, secure the scene, call for appropriate assistance, and assist special rescue teams. Refer to NFPA 1670, Operations and Training for Technical Rescue Incidents for more information.					
Task: Given a simulated special rescue scenario, the candidate as part of a team shall safely establish public barriers.					
Performance Outcome: The candidate shall be able to respond safely, place emergency vehicle to protect the incident scene, perform personal size up to assess for hazards, secure the scene, call for appropriate assistance, don PPE, and establish public barriers.					
Candidate Directive: "Safely establish public barriers."					
No.	Task Steps	First Test		Retest	
		P	F	P	F
1.	Responds safely to emergency scene.				
2.	Places emergency vehicle in safe position that protects scene.				
3.	Performs size-up to assess for hazards.				
4.	Secures scene.				
5.	Calls for needed assistance.				
6.	Dons PPE.				
7.	Uses appropriate devices to establish a barrier, following IC's orders.
