**1006-SKILL-11**

<b>Standard:</b>	NFPA 1006 – 2013 edition - 5.4.1
<b>Task:</b>	Inspect and maintain hazard-specific personal protective equipment.
<b>Performance Outcome:</b>	Damage, defects, and wear are identified and reported or repaired, equipment functions as designed, and preventive maintenance has been performed and documented consistent with the manufacturer’s recommendations.
<b>Conditions:</b>	Given clothing or equipment for the protection of the rescuers, including respiratory protection, cleaning and sanitation supplies, maintenance logs or records, and such tools and resources as are indicated by the manufacturer’s guidelines for assembly or disassembly of components during repair or maintenance.
<b>Candidate Directive:</b>	“Inspect and perform routine maintenance on the provided personal protective equipment and document your work.”

NO.	TASK STEPS	TEST	
		Successful	Unsuccessful
1	Damage was identified
