

PRACTICAL SKILLS CHECK SHEETS

Candidate: _____

Successful

Evaluator: _____

Unsuccessful

Date: _____

1006-SKILL-19

Standard:	NFPA 1006 – 2013 edition – 5.5.7
Task:	Construct a lowering system
Performance Outcome:	The system can accommodate the load, is efficient, is capable of controlling the descent, is capable of holding the load in place or lowering with minimal effort over the required distance, and is connected to an anchor system and the load.
Conditions:	Given an anchor system, life safety rope(s), descent control device, and auxiliary rope rescue equipment.
Candidate Directive:	“Construct a lowering system to function in the provided rescue scenario.”

NO.	TASK STEPS	TEST	
		Successful	Unsuccessful
1	System accommodated the load		
2	System was efficient		
3	System was capable of controlling the descent		
4	System was capable of holding the load in place or lowering with minimal effort for the required distance		
5	System was connected to the anchor system and the load
