Date: \_\_\_\_\_

**1006-SKILL-21**

<b>Standard:</b>	NFPA 1006 – 2013 edition – 5.5.9
<b>Task:</b>	Construct a belay system.
<b>Performance Outcome:</b>	The system is capable of arresting a fall, a fall will not result in system failure, the system is not loaded unless actuated, actuation of the system will not injure or otherwise incapacitate the belayer, the belayer is not rigged into the equipment components of the system, and the system is suitable to the site and is connected to an anchor system and the load.
<b>Conditions:</b>	Given life safety rope, anchor systems, personal protective equipment, and rope rescue equipment.
<b>Candidate Directive:</b>	“Construct a belay system to function in the provided rescue scenario.”

NO.	TASK STEPS	TEST
