1006-SKILL-27

Standard:	NFPA 1006, 6.1.3 2013 edition
Task:	Construct a multiple-point anchor system.
Performance Outcome:	Given life safety rope and other auxiliary rope rescue equipment.
Conditions:	Given rescue personnel, an established lowering system, a specified minimum travel distance for the load, and a load to be moved.
Candidate Directive:	“Construct a multi-point anchor system.”

NO.	TASK STEPS	TEST	
		Successful	Unsuccessful
1	Multi-point anchor system was constructed		
2	The chosen anchor system fit the incident needs		
3	The system strength met or exceeded the expected load and did not interfere with rescue operations		
4	Equipment was visually inspected prior to being put in service		
5	The nearest anchor point that would support the load was chosen		
6	The anchor system was system safety checked prior to being placed into service		
7	The integrity of the system was maintained throughout the operation		
8	Weight was distributed between more than one anchor point
