1006-SKILL-34

Standard:	NFPA 1006, 6.2.2 2013 edition
Task:	Manage the movement of the victim as the rescuer in a high-angle environment
Performance Outcome:	Risks to victims and rescuers are minimized; undesirable victim movement within the transfer device is minimized; the means of attachment to the rope rescue system is maintained; the victim is removed from the hazard; selected specialized equipment facilitates efficient victim movement; and the victim can be transported to the local EMS provider.
Conditions:	Given a rope rescue system, a specified minimum travel distance for the victim, victim transfer devices, and specialized equipment necessary for the environment.
Candidate Directive:	“Manage the movement of the victim as the rescuer in a high-angle environment”

NO.	TASK STEPS	TEST	
		Successful	Unsuccessful
1	Movement of the victim was managed		
2	Risks to victims and rescuers were minimized		
3	Undesirable victim movement within the transfer device was minimized		
4	The means of attachment to the rope rescue system was maintained		
5	The victim was removed from the hazard
