

GENERAL CONDITIONS

City of Nanaimo Traffic and Highway Bylaw 1993 No. 5000 contains bylaws to regulate truck traffic. Vehicles exceeding the bylaw limits must obtain a permit before travelling in Nanaimo. Permits may be obtained from the Engineering Department located at the Service and Resource Centre (SARC), 411 Dunsmuir Street, Nanaimo, BC, V9R 0E4.

On 1997-May-05, City Council endorsed the current truck route as seen on the map on this pamphlet.

Trucks with a licensed GVW greater than 13,700 kg must travel on truck routes. Destinations that are not on a truck route are called local deliveries. A local delivery must only be made by travelling the shortest route between the destination and the truck route. After a delivery or pickup is made, trucks must return to the closest point on the truck route.

On 2000-Aug-14, City Council endorsed, in principle, the use of specific streets, as seen on the map on this pamphlet, to connect to Highway 1 and Highway 19 for non-reducible loads to a maximum of 85,000 kg. To use these routes, an application must be granted by the City of Nanaimo Engineering department, prior to travelling on these streets.

If you have questions, please contact the Engineering Department at:

Phone: 250-754-4251, ext. 4230 Email: engineeringinfo@nanaimo.ca Website: www.nanaimo.ca

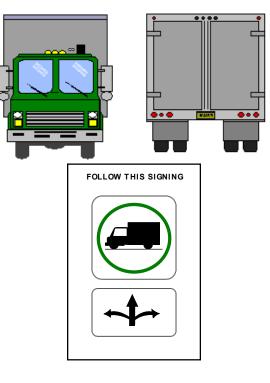

CONDITIONS REQUIRING A PERMIT FOR AN OVERSIZE, OVERWEIGHT VEHICLE

- GVW of vehicle in excess of licensed GVW.
- Axle weights in excess of allowable limits.
- Width of vehicle, with or without load, in excess of 2.6m.
- Height of vehicle, with or without load, in excess of 4.15m.
- A single vehicle having an overall length, with or without load, in excess of 12.5m, except as provided in 1, 2, and 3;
 - 1) A trailer the overall length of which exceeds 16.2m.*
 - 2) A straight truck and pony trailer combination having an overall length, with or without load, in excess of 23.0m.*
 - A straight truck and full trailer combination having an overall length, with or without load in excess 23.0m.*
 - An A-train, B-train or C-train having an overall length, including its load, in excess of 25.0m*
 - 5) A combination of 2 vehicles carrying a load of non-reducible logs, poles, or piling in excess of 21.5m.*
 - A bus the overall length of which exceeds 14.0 m.*

*Determining overall vehicle length does not include air deflectors, heaters, refrigeration units and other non-load carrying equipment.
