

# ADDITIONAL INFORMATION

## WATER TECHNICIAN (26-14)

### Work with purpose. Live with adventure.

Looking for a career that challenges you, makes a real impact, and gives you the lifestyle you've been dreaming of? The City of Nanaimo is hiring a Water Technician to join our Water Resources team - where you'll help keep one of life's most essential resources flowing: clean, safe water. Bring your skills, curiosity, and passion for problem-solving to help make a difference and protect the environment.

### What You'll Do

As part of the Water Supply Team, you'll be involved in planning, design, projects, and operations across Nanaimo's water system. Your work will span:

- Two water supply dams
- Class IV Water Treatment and Distribution facilities
- Advanced membrane filtration technology
- Aboveground balancing reservoirs
- An energy recovery center
- Multiple pump stations across the city
- 24+ pressure zones ensuring reliable service
- 57+ pressure reducing stations

This is hands-on, meaningful work that directly supports the health, safety and sustainability of our growing community.

### Grow With Us

At the City of Nanaimo, we invest in your future:

- Ongoing training through Continuing Education Units (CEUs)
- A registered Direct Responsible Charge (DRC) plan

### Why Nanaimo?

This isn't just a job, it's a lifestyle. Nanaimo offers the perfect balance of career challenges and outdoor adventure:

- Endless recreation: hiking, biking, kayaking, and world-class diving
- A vibrant arts and culture scene
- Easy access to Vancouver and Victoria while enjoying the beauty of Vancouver Island
- More affordable living compared to larger urban centers

Imagine finishing a rewarding day ensuring safe water for thousands of residents, then heading out for a paddle on the ocean, a trail run in the forest, or a sunset walk along the harbourfront.

### Join Us

If you're ready for a career that combines technical expertise, growth opportunities, and an unbeatable lifestyle, the City of Nanaimo is the place to be. Apply today and help us keep our community flowing strong.
